“Lloyd's "Detroit Style Pizza Pan" gives my pizza crust the perfect balance of crispy, soft and chewy.”

"I don't have to season the pans (saves me hours of time!) and my crust and caramelized cheese corners never stick to pan!"

Jeff Smokevitch

Owner of Brown Dog Pizza in Telluride, CO

World Pizza Champion

Detroit Style Pizza Pans

Sleek body design: Built to motor city specifications.

Tough Type 3 hard coat anodize exterior:

Metal utensil safe to withstand punishing conditions without chipping, baking, or flaking off –no matter what.

High performance release coating:

Non-toxic and ready to roll – no pre-seasoning required.

Delicious interior: Your customers will taste the robust flavors of your mouth-watering pizza –not the pan.

Rugged durability: Long after food, carbon, and rancid oil build-up on blue steel pans make them candidates for replacement, our Detroit Style Pans still look and act like they've just rolled off the lot.
