Apple Cheddar Panini with Onion Jam

Set your Majestic Panini Grill to 400-450° F. Let your Panini Grill preheat while you prepare your sandwich.

Take two slices of bread and brush olive oil on one side of each slice of bread and lay the oiled side down.

Spread 1 Tbs. of onion jam across the inside of one piece of bread. Arrange cheddar cheese across one side of the bread. Cut apple into thinly sliced pieces and spread across sandwich to an amount of your liking. Lastly, top with thyme and place bread on top, oiled side up.

Place sandwich onto preheated panini grill, close the press onto the sandwich and let it cook for 2-4 minutes until the bread is golden and the cheese is melted.

Let the panini cool off for 1 minute, & enjoy!
